Maverick Directional Services

25615 Oakhurst Dr, Spring, TX 77386-1437
p: 281 364 1212

- Maverick Directional Services recognizes that the most competitive companies in the oilfield industry must harness new technology, equipment and methodologies to stay in the forefront of service

Company Profile

Maverick Directional Services was formed in August of 2000 by a dynamic group of highly experienced professionals in the Directional Drilling Industry. This core team of drilling professionals has a combined average of over 21 years of Directional Drilling experience per person, the highest in the industry today. We are a service-oriented company, on the leading edge of drilling theory, technology and application.

Maverick Directional Services provides a total scope of directional drilling services. These services include computerized well planning, engineering support, down hole tools, and most importantly, supplying skilled Directional Supervisors.
